SUMMARY

Product designer with 10+ years across B2B and B2C products, with experience spanning hands-on interface design, design leadership and product management. Leads projects end to end, from research and concept to final UI, builds design systems that scale, and designs AI decisioning, agentic and conversational experiences that stay explainable and keep people in the loop.

EXPERIENCE

Optimove

Feb 2025 - Present

Senior Product Designer

- Own design strategy across orchestration, execution and gamification, connecting campaign planning, configuration and performance workflows.
- Lead UX for AI Decisioning Studio and its connection to Campaign Builder, defining how marketers configure automated decisions and inspect results.
- Designed control models for per-customer channel, promotion and send-time decisions, clarifying what the AI decides and what marketers can change.
- Led design for Streams 2.0, a chat-first journey builder, defining how marketers and AI agents build and review campaigns together.
- Built working front-end prototypes to explore AI setup, decision explanations, performance comparisons and incomplete-data states.
- As product design's AI Champion, identify where AI can carry the design process and build the tools that bring it to designers, PMs and engineers.
- Developed AI-assisted design workflows grounded in the design system, with reusable UI patterns and automated checks for visual consistency and interaction states.

PLAYSTUDIOS

Apr 2024 - Feb 2025

Lead Product Manager

- Led Tetris Block Party, a new casual puzzle game on the worldwide Tetris brand, and brought it to soft launch.
- Owned the game's creative direction and narrative.
- Built the roadmap and mediated between the creative, development, economy and data analyst teams.
- Planned and built all core and LiveOps features, starting from the UX.

EveryBuddy Games

Nov 2020 - May 2024

Lead Product Designer → Head of Product Design

Promoted to Head of Product Design in June 2021. Led a 15-person multidisciplinary studio: 4 product designers, 8 graphic designers, 2 animators and a sound designer.

- Led and mentored the studio across product, art, motion and sound, and kept one consistent player experience across game features while the company scaled.
- Led design of Lucky Buddies, a slot-driven mobile RPG: game UI, branding, motion and specs.
- Tied design strategy to business goals and designed monetization features that balance player experience against revenue.

Palo Alto Networks

Mar 2020 - Nov 2020

UI/UX Product Designer

- Designed data-dense B2B cybersecurity interfaces, grounded in user research and usability testing.
- Turned complex technical requirements into simple flows with product and engineering.

Playtech

Jan 2018 - Mar 2020

Lead Product Designer

Joined through the Beehive BI acquisition.

- Led UI/UX for Player Journey, Playtech's CRM tool: a journey canvas that replaced form-based setup, and a guided flow that lets non-technical marketers set goals and KPIs for trigger-based campaigns.
- Built a cross-platform design system and style guide shared from Player Journey to Playtech's Campaign Manager.

Beehive BI

Apr 2015 - Jan 2018

Lead Visual / Product Designer

Design owner of the Beehive BI platform.

- Owned the platform's design end to end, from wireframes and prototypes to the final UI.
- Turned complex business data into clear, easy-to-navigate dashboards.
- Responsible for the company's brand and visual identity.

SKILLS

Product design	Interaction and UI design, design systems, user research and usability testing
AI experiences	AI decisioning, agentic and conversational UX, explainability, human-in-the-loop
Prototyping	Working prototypes in React and HTML/CSS/JS, product motion and video
Product	Strategy, roadmap and prioritization, specs, cross-functional leadership
Tools	Figma (components, variables), Figma Make, Claude Code, Codex

EDUCATION

The Open University of Israel	B.A. Social Sciences and Humanities, Magna Cum Laude
Ariel University	Media Design, Visual Communication

Military service	Combat unit
